Application No. 10/816,219
Filed: April 1, 2004
TC Art Unit: 2627
Confirmation No.: 7321

Please amend the application as follows:

IN THE SPECIFICATION

Please replace the paragraph between lines 1 and 13 on page 2 with the following:

Reference numeral 107 denotes a head unit. Here, the entire head unit is reciprocated in a diametrical direction of the disk tray 102 by means of a driving mechanism 108 provided at the other surface of the disk tray 102, and a laser beam is applied from an objective lens 107a to the optical disk. In addition, the front end of the disk tray 102 is provided with a bezel 103 for decorating the external appearance thereof. The external surface of the bezel 103[[3]] is provided with an indicator window 110 and a push-button 109 for releasing a loaded state of the disk tray 102, and a through hole 103a for inserting an emergency pin P is formed on the surface of the bezel 103[[3]] in order to forcibly release the locked state of the disk tray 102.
